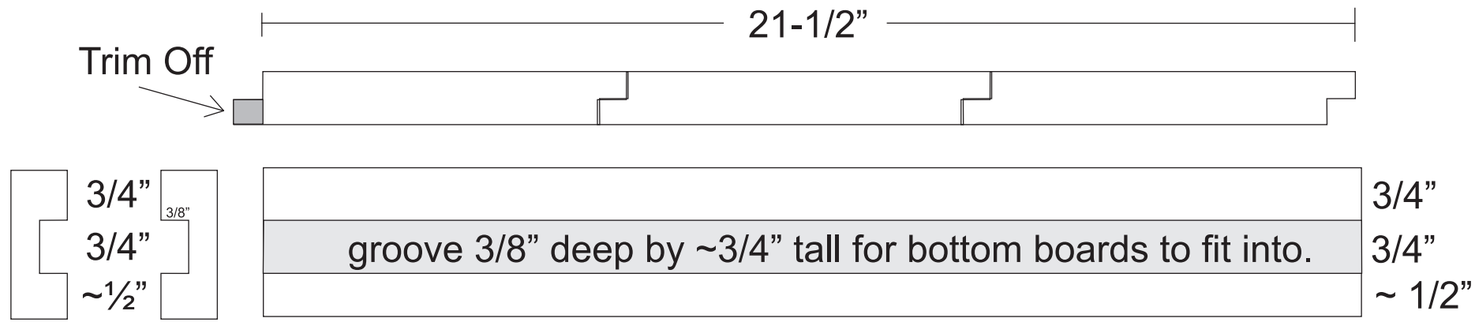
1x8 Shiplap roof deck boards

Cut to (3) lengths of 15-5/8” each

Arrange so that they fit to each other, then mark the rear lip, and remove it with a table saw.



Side Rails: (x2)
3/4” thick x 2” wide x 21-1/2” long

Router a 3/4” groove (a little oversized) for the bottom boards to fit into.
Leave ~ 3/4” at the top to act as a stand-off for the hive body to sit on.

Cut a 3/4” x 3/4” strip to fit between the side rails on the rear side of the bottom board.

(not to scale - use measurements)
